Milam-Areans Fair Draws Crowds

ROCKDALE

"I think we proved the people want it, that Fair Park is the perfect place for it, and it'll be even bigger and better next year." So said Bill Vogelpohl in the aftermath of the first annual Rockdale Fair which drew a total, three-day attendance estimated at 7,000 people--and a peak attendance estimated at 3,000 to 4,500 on Saturday when the Fair offered everything from horse races to cake walks.

City Buries Time Capsule

HEARNE

Hearne has buried a time capsule on the lawn in front of the city hall which is to be opened on July 4, 2076. Included among the items in the watertight capsule are several photographs, a copy of the city charter adopted in 1964, coins, picture of the council, a list of city employees, and a Texas map.

Paralyzed Gridster Honored

BELTON

Harry Wilson Day was part of the Belton High School homecoming last Friday and was climaxed with halftime ceremonies when the paralyzed former Big Red football player was given a permanent pass to all high school athletic events. Harry was permanently and completely paralyzed in the 1972 football game against Gatesville.

Show Building Contested

GEORGETOWN

About 50 businessmen, officials, farmers, and ranchers from Williamson County argued last week about whether \$100,000 in county funds should be allocated for a livestock and fair building located in Georgetown, the county seat. After hearing a review of the beleaguered history of the one-show concept in Williamson County, persons from Taylor, Granger, and Bartlett spoke to oppose the appropriation while Georgetown, Florence, and Round Rock residents supported the expenditure.

Family Left Homeless

WACO

A family of 13 was left homeless Thursday night when their only source of heat--a camp stove--exploded and destroyed their farm residence in Waco. The house was occupied by C. L. Green, his wife, mother-in-law, and seven children. Living with them was Green's brother, his wife and child. Green said his gas was cut off last week and the electricity was disconnected earlier Thursday because he had not paid his bills.

ABC Chooses Voting Box

TEMPLE

Voting Box 19 in Temple will be one of a sample of 90 voting boxes throughout Texas from which ABC-TV will predict the outcome of the presidential and senatorial races in Texas. ABC will make predictions as soon as the polls close Tuesday at 7 p.m. The Harris Poll will predict winners earlier in the evening and Box 19 will be one of the 15 key boxes in the state to participate in this sample.

Grant Approved For Hill Country Action Group

Governor Dolph Briscoe announced approval of a \$10,000 Community Services Administration grant to Hill Country Community Action Association, Inc., in San Saba.

The grant is for a Community Food and Nutrition Program (CFNP), and is effective retroactively to Oct. 1, 1976. It is funded under Title II of the Head Start, Economic Opportunity, and Community Partnership Act of 1974.

The CFNP funds are being used for a voucher system to provide food on an emergency basis in the counties of Mills, Llano, San Saba, Mason, Hamilton, Lampasas, Coryell, Bell and Milam; to provide food stamp outreach and nutrition education to the poor in these counties; to provide prenatal vitamins and education on prenatal care in coordination with the Family Planning Program; and to provide training and technical assistance to communities to establish food banks, hunger action centers or feeding programs.

Grant processing and program liaison are through the Economic Opportunity Division of the Texas Department of Community Affairs.

New Program Offers Info On Cancer

A new "weapon" against cancer is now available in Milam County to provide the public with current, factual information on cancer, its prevention and early detection.

Called the Cancer Information Service, the new program utilizes a toll-free phone line (1-800-392-2040) to answer public inquiries on cancer. The service will be extended to all residents of Texas by late this year.

The CIS is part of a public educational effort sponsored by The University of Texas M. D. Anderson Hospital and Tumor Institute with assistance from the American Red Cross, American Cancer Society and many other health agencies in Texas which provide services to cancer patients and their families.

Funded by the National Cancer Institute, the CIS functions as part of a nation-wide network.

Open from 8 a.m. to 5 p.m. on weekdays, the phone lines are operated by trained American Red Cross volunteers. All background material used to answer questions is reviewed by physicians to insure accuracy.

Lions To Host Kubiak

Rep. Dan Kubiak will be guest speaker for the Evening Lions Club Monday night, Nov. 1 at the O. J. Thomas School cafeteria. A barbecue supper will start at 6 p.m. and Kubiak will speak following the supper.

For 3 Mishaps Slick Hiway Blamed

Wet pavement was the chief cause of three accidents that occurred on the same stretch of highway Thursday and Friday, with no serious injuries reported in any of the mishaps.

The location of the accidents was between Ben Arnold and Burlington on Highway 77, according to investigating Trooper Milton Wright of Cameron.

Thursday's mishap was reported at 10:45 a.m. when an empty truck driven by James Vernon of Denver, Colo., turned over. He was taken to St. Edward Hospital in Cameron and was treated and released.

The two accidents Friday occurred within less than an hour of each other, and again wet pavement was blamed for the mishaps.

Entomologist Is Conducting Ant Survey In County

Robert E. Glodt, Jr., County Extension entomologist stationed at Georgetown, is asking residents in Milam County to send him samples of fire ants for a study to determine the distribution of these ants in the county.

"Although ants are less active in colder weather," Glodt said, "they can be found moving about on warm days. When collecting ants, I suggest you use tweezers to pick them up then drop them in a bottle of ordinary rubbing alcohol."

The ants can be brought to the county Extension office in Cameron. No live specimens, please.

Write in pencil and put in the jar a slip of paper with the following information:

Your name, address and phone number; location where specimens were collected, being specific; the percent of the area infested with mounds; and include at least five large ants in each specimen.

After examination, Glodt will report to the person as to what species of ant he has.

Thorndale Sets 2nd Bond Election

For the second time this year voters in the Thorndale Independent School District will go to the polls on a school bond election.

This one, Nov. 9, has been set for \$500,900 to erect a new elementary school building and a band hall. The poll will be open in the present band hall from 7 a.m. to 7 p.m.

A similar proposal in June, for \$995,000, included a gym and was turned down 4 to 1. The second bond issue will not include the gymnasium.

The first was at 12:05 p.m. when a car driven by August Roberts of Brookshire was hit in the rear by a car driven by Cresanto Perez of Rosebud.

Neither driver was injured but damage was reported to the vehicles.

And at 12:45 p.m. Friday in the same location a pickup truck driven

by Gregory Court of College Station overturned, slightly injuring his passenger, Tommy Harkness, also of College Station. Both are students at Texas A&M.

According to Trooper Wright, Court's vehicle went out of control on a slick highway, leading to the accident.

Earning Changes Told For Social Security

Beginning January 1, 1977, the maximum amount of earnings in a year that count for social security will automatically increase to \$16,500, up from this year's maximum of \$15,300, James B. Cardwell, Commissioner of Social Security, announced today.

Also in 1977, the maximum amount that a beneficiary can earn and still get all his social security checks will increase to \$3,000 in a year under the same automatic increase provisions of the law, Commissioner Cardwell said. The 1976 figure is \$2,760.

People who earn more than \$3,000 in 1977 may still get some social security benefits, but every two dollars they earn above \$3,000 may cause a reduction of one dollar in their social security benefits for the year. No matter how much they earn in 1977, they can get their full benefit for any month in which they do not earn more than \$250 in wages (up from \$230 in 1976) and do not perform substantial services in self-employment.

The Commissioner noted that these increases are determined on the basis of a formula in the law which automatically produces a result based on reported wage statistics.

"The formula is designed to keep both the contribution and benefit base, and the retirement test exempt amount, up to date as average wage levels rise throughout the nation," Commissioner Cardwell said. "Under the law, these automatic increases can take effect only after a year in which there has been an automatic increase in social security benefits." This requirement was met by a 6.4 percent automatic increase in benefits that took effect earlier this year.

The contribution and benefit base is the maximum amount of earnings in a year that are creditable toward social security benefits and are taxable under social security. The new base of \$16,500 will provide additional income to the social security program without increasing the taxes of workers who earn \$15,300 or less in a year, the Commissioner said.

He noted that the social security tax rate, now at 5.85 percent of

taxable earnings for employees and employers each, and 7.9 percent of taxable earnings for self-employed people, will remain unchanged in 1977.

The increase in taxes payable on 1977 earnings for workers who earn more than \$15,300 will range up to a maximum of \$70.20 each for a wage earner and his employer, and \$94.80 for a self-employed person. The maximum social security tax a wage earner will pay in 1977 will be \$965.25, and a self-employed person \$1,303.50.

An estimated 19 million workers--about one out of six covered by social security--will be affected by the increase in 1977 because they will have earnings of more than \$15,300. The increase in the base will result in additional taxes of \$2.3 billion on 1977 earnings.

Alcoa Reports Earnings For Third Quarter

PITTSBURGH, PA.

Aluminum Company of America has reported net income for the third quarter of 1976 was \$39.1 million, or \$1.13 a common share. Net income in the third quarter of 1975, severely affected by the recession, was \$7.9 million, or 21 cents a common share. By contrast, net income in the third quarter of 1974 was \$47.8 million, or \$1.42 per share.

Alcoa operates plants in Rockdale, Point Comfort, Marshall, and Palestine, Texas.

During the first nine months of 1976, net income was \$104.2 million, or \$3.01 a share, a return on invested capital (shareholders' equity plus long-term debt) of 4.9 percent on an annualized basis. Return on shareholders' equity was 8.4 percent annualized for 1976.

Alcoa net income for the first nine months of 1975 was \$58.7 million, or \$1.69 a common share. It represented an annualized return of 2.8 percent on invested capital and 5.0 percent on shareholders' equity.

Only Then Deciding ...

The papers are full to election-eve editions with politics. And it struck home only a few days ago that Ford and Carter during the third debate seemed to find or refine their candidacies.

Each man was listening to advisors and to the other candidate and was reading the polls. Somehow, it took several months for both to realize they ought to do what they do best.

So Jimmy Carter has restored his charismatic approach and President Ford is talking about what he would do to alleviate dangers of nuclear proliferation.

The Playboy interview, the gaffe on Eastern Europe and almost fanatical adherence to polls and off-camera advisors contributed to the September slide for Carter and the Ford plateau in October.

Now is somewhat more positive, somewhat more what it should have been since the Republican convention in one of the drabest campaigns in memory.

Ford closed the enormous gap with Carter by being circumspect and presidential. Carter gained the lead he lost by some kind of missionary appeal to people in all walks.

They are closing this campaign more on those terms.

Carter continues ahead at scratch, but Ford is pressing. The election will be won by a close margin in popular vote, perhaps even narrower by the electoral count.

Voters in no record numbers are going to polling places Tuesday, many of them, perhaps 40 percent, only then making a choice.

Some Vintage Years Ahead...

That was a vintage year. It is 1976 and what is happening to the talent of the '74-'75 Yoemen, the creme-de-la-creme?

Jafus White and Ronnie Bennett are playing defensive back and end on an undefeated Texas A&I University team, going 8-0 this season and 34 straight. A&I leads the Lone Star Conference.

Joe Mondrik is in prep school with a shot at Annapolis coming up. He played for the Naval Prep School

and is shooting for varsity at the Naval Academy.

Joe Smitherman is a starting lineman at Blinn Junior College with ambitions to play Baylor University's Bears.

These are the boys among several others who have tried at Southwest Conference Schools or colleges in Texas.

Not bad, Yoemen, not bad. It's quite likely we'll be hearing a lot more about these guys, some more vintage years.

LETTERS TO THE EDITOR

Dear Frank:

Last year you wrote me regarding the application of Joseph Lincoln Mondrik Jr., for the Naval Academy. At the appropriate time I did extend him a competitive nomination to the Naval Academy. Since that time, Mr. Mondrik has availed himself of the opportunity to study at the United States Naval Prep School and has again applied for a congressional nomination to the Naval Academy.

I am pleased to be able to tell you that it is possible for me to extend him a second nomination for Annapolis. Thus, if he ranks number one among his set of competitors, he will have the opportunity to avail himself of this splendid educational experience.

Again, thank you for writing in this young man's behalf and with best wishes, I am
Yours sincerely,
W. R. Poage
Congressman

Dear Mr. Luecke,

Two weeks ago a Rogers lady was buried here that in childhood grew up with Mrs. Mable McKinney, mother of your commissioner. She was at the Cameron Nursing Home.

As long as I was able I kept in touch with both Mrs. McKinney at CNH and Mrs. King at Will O'Beil Home in Bartlett. Since her death I have written to Mrs. McKinney. As yet, I have had no word at all. Do you know if she is still living and if not do you mind to tell me?

I buy The Herald now and then, but I cannot send you my subscription yet. I hope to soon.

Thank you for your kindness.

Mrs. Ben Adams

Rogers, Texas 76569

Oceans: Our Continuing Frontier

A New World Picture

By Sir Edward Bullard

Editor's Note: This is the sixth of 16 articles in the series "Oceans: Our Continuing Frontier." In this article Sir Edward Bullard describes how great rigid plates of the earth's crust are moving, how new sea floor is being formed, and how the continents are drifting apart. In sum, the recent findings of geologists that have revolutionized our concept of the earth's history. The author is Professor of Geophysics at the Institute of Geophysics and Planetary Physics, University of California, San Diego.

These articles, which explore the whole range of human involvement with the sea, were written for Courses by Newspaper, a program developed by University Extension, University of California, San Diego, and funded by a grant from the National Endowment for the Humanities.

Copyright 1976 by the Regents of the University of California.

A geologist studies the earth, but until a few years ago the two-thirds of the earth's surface that lies beneath the oceans was almost totally unknown.

When it was studied, it turned out to be a new world. Everything was different from what we see on land.

On land the mountains, such as the Alps, are formed from once flat-lying rocks that have been squeezed and folded. Such mountains never occur in the deep ocean. There the mountains are all volcanoes.

The rocks are different, too. Beneath the sediments of the continents and in the cores of the mountains, we usually find granites. At sea, the rocks are black basalts that have flowed out as lava from the volcanoes. Basalts and volcanoes do occur on the continents, but they are by no means the commonest rocks or the commonest kinds of mountains.

A YOUNG OCEAN FLOOR

Perhaps the most remarkable difference is that the rocks of the oceans, both sediments and lavas, are all quite young. Young, that is, as geological ages go. The rocks on the continents are of all ages: some we can see being formed today; some were formed 4,000 million years ago. At sea we find rocks about 160 million years old, but nothing older. The entire floor of the ocean was formed in the last 4 percent of geological time. This was a quite unexpected discovery.

The landscape of the ocean floor also had its surprises. Its most striking feature is the great mountain range, the mid-ocean ridge, which runs right around the world.

It starts off the mount of the Lean River in Siberia, runs across the Arctic Ocean, through Iceland, down the whole length of the Atlantic, round the south of Africa and into the Indian Ocean. Between Madagascar and India it splits. One branch runs northwest into the Red Sea, the other goes south of Australia and New Zealand, across the South Pacific and northwards into the Gulf of California.

This ridge is much the longest mountain range on earth. In height about the neighboring plains, it is comparable to the great mountains of the continents.

Along the axis of the ridge there is a crack-like valley in which earthquakes are a daily occurrence. Records of these earthquakes have been taken by seismographs all over the world, and also, in recent years, by seismographs on the floor of the valley itself. They show that the sea floor is splitting apart. The opening cracks are, naturally, filled with lava, which emerges like toothpaste squeezed from a tube.

On each side of the valley the sea floor has no earthquakes. It seems that new sea floor is being formed by the splitting open of the central valley of the ridge. The sea floor on each side is moving away as a pair of rigid plates, with no breaking or splitting except along the joint.

CONTINENTS ON THE MOVE

In the Atlantic there is no sign of crumpling where the sea floor meets the continent. The moving plates appear to include not only the sea floor, but also the continents around the ocean.

Not only is the floor of the Atlantic moving outwards from the ridge, North America and Europe are moving, too, and getting farther and farther apart. Similar processes are at work in the South Atlantic where Africa and South America are separating, and in the Indian Ocean where India and Africa are getting farther apart. Australia and Antarctica are also separating.

Clearly it is not possible for all the oceans to widen at the same time. If the continents move apart

BIRTH OF AN ISLAND Scientists on Surveys, off southern Ireland, watch the volcanic eruption that marks the birthplace of a new island in July, 1963. Such volcanic activity is taking place along the mid-ocean ridges.

in some places, they must come closer together in others. To put it in another way, if sea floor is being created on the ridges, it must be destroyed somewhere else. (The process is much too rapid for the extra sea floor to be accommodated by swelling of the whole earth.)

The place where the sea floor disappears is marked by the great belts of earthquakes around the Pacific and in some other places, such as the Caribbean and the arc of islands between the southern tip of South America and Antarctica. These belts of earthquakes are shallow on the ocean side and run down under the continents to depths of six or seven hundred kilometers.

It is now clear that, along these belts of earthquakes, the outward moving plates of ocean floor are plunging down beneath the continents and returning again to the depths from which they emerged when they were formed at the volcanoes in mid-ocean.

By a wonderful and quite unexpected piece of good fortune, it is now possible to trace the whole history of the movement of the ocean floors.

When a piece of lava cools in the central valley of the ridge, it becomes feebly magnetized by the earth's magnetic field. This magnetization is in the direction of the field at the time the rock is formed.

However, the earth's field has not always been in the same direction. At irregular intervals, on the average every few hundred thousand years, it flips over and points south and up instead of north and down as it does at present in the Northern Hemisphere. These flips are recorded by the magnetization of the rocks being formed at the time, and can be observed by an instrument towed behind a ship.

As the sea floor moves away from the ridge, stripes of opposite directions of magnetization are formed. The sea floor thus forms a giant tape recorder which preserves a record of the reversals of the field in the past.

A double record, one on each side of the ridge, covers the whole of the floors of all the oceans and enables us to say with some certainty, "This piece of floor was formed on the axis of the ridge, as a hot and molten lava, at this date and have moved out to where it is now." The speeds turn out to be from one to ten centi-

meters each year.

Very recently the drilling of over 400 holes in the floor of the deep sea has wonderfully confirmed the ages expected from the magnetic lineations.

The idea that the continents have moved apart is not new. It was urged most persuasively by Alfred Wegener, a German meteorologist, 60 years ago. What is new is that a study of the ocean floor has demonstrated that it really happened. Wegener was right, but it is only the great effort of the last 20 years that has persuaded most people of the correctness of his beliefs.

We have, in fact, what is nothing less than a world view of geological change.

The new views have developed as more or less academic science, but clearly we cannot change our views of global processes without effects on practical affairs. We look for oil and minerals in the light of what we know about geological processes, and here is a whole new insight into the processes.

If continents have split apart, moved about, collided, and had plates of ocean floor thrust under them, then these processes must be connected with mineral formation and the genesis of oil-containing basins of sediments.

The application of the new knowledge has hardly begun. It is a task of outstanding interest for the future.

COURSES BY NEWSPAPER is distributed by the National Newspaper Association. The views expressed in this series are those of the authors only and do not necessarily reflect those of the University of California, the National Endowment for the Humanities, the distributing agency, or of the participating newspapers and colleges.

NEXT WEEK: Willard Bascom, archaeologist and director of the Southern California Coastal Water Research Project, considers some popular myths about the sea when he discusses "Science and Ancient Sea Stories."

"Records of these earthquakes ... show that the sea floor is splitting apart."

Inflation Hands Backlog To Highway Department

AMARILLO Inflation has handed Texas an \$11-billion backlog of needed highway projects and less than \$2 billion to meet it in the next 20 years, Charles E. Simons, a member of the State Highway and Public Transportation Commission, said here today.

"And I defy anyone here to buy \$11 worth of groceries with a \$2 bill," he added.

Simons addressed the Texas County Judges and Commissioners Association meet-

ing. The Commissioner referred to a year long study of the department and the Texas highway program recently completed by the department and an internationally known consulting firm, McKinsey & Company, Inc.

"I know of no study that was done with greater competence or objectivity than this one," he said. The study has stirred public interest in the plight of the State Department of Highways and Public

questions have arisen since as a result of the wide public interest it has stimulated. One of the points was the matter of why the highway program needed dedicated sources of funding, Simons said.

There are several reasons, he said.

"First, dedication of funds allows the department to plan and carry out work on the highway system in a rational and orderly pattern." He added that, because of de-

lays occasioned by red tape and required environmental, social, and economic studies, lead times have increased drastically.

"Thus, we need assurance that the money will be ready after the plans have been reviewed and re-reviewed and re-reviewed, ad infinitum," Simons said.

Also, with assured income, he said, the department can schedule jobs more efficiently and can spread work loads over an extended time.

The Commissioner said the backlog of work represents projects the commission had every reason to believe they would be able to fulfill in the light of conditions that existed at the time.

Simons said the department began early to start

tightening belts, decreasing the work force and effecting other economies. At the same time, federal bureaucratic delays put worthy projects further and further back as lead time necessary to get a project underway stretched from about two years to eight years.

"Thus the backlog grew and the department and the commission were powerless to do anything about it," he said.

Now, the department has re-evaluated systems and projects all over the state. The study made specific recommendations on individual projects, including the elimination of many in the backlog.

COLUMNS on the Temple of Jupiter at Baalbek loom behind visitors to the Roman ruins in Lebanon. Towering more than 60 feet, the columns are among the largest

ever raised. A lion's head waterspout projects from a cornice of the temple. Syrian troops fighting in Lebanon's bloody civil war have captured the ancient city.

Puss Caterpillar Sting Hazardous

Several area residents have encountered a fuzzy or spiny caterpillar which inflicts a painful "sting" upon contact. The puss caterpillar (Megalopyge opercularis) has been identified as the culprit.

Newly hatched larvae of the puss caterpillar resemble small tufts of cotton. They develop gradually over a period of a few weeks, shedding their skins at intervals to allow for growth to about 1 inch long when mature. Their color gradually changes with each molt from whitish to tan to grayish, with darker markings when mature.

Interspersed among the long body hairs are numerous short spines which discharge venom upon contact. When viewed from above, the puss caterpillar's head, true legs, and abdominal prolegs are obscured beneath the body.

A person's first symptom following contact with a puss caterpillar is an intense, local burning at the site of contact. The pain may soon radiate a considerable distance as localized swelling begins to occur. The area of contact may become greatly reddened with minute papules, and the inflammation may spread several inches around the sting.

In sensitive persons, lymph nodes may become enlarged and painful under the arms and severe headaches may begin. The victim may become weak and nauseated, and shock-like symptoms may occur.

If these conditions occur, it will usually be within two hours after contact. Even when such systemic reactions

do not occur, the sting may remain inflamed and irritated for several days. The severity of the symptoms apparently is related to individual sensitivity, maturity of the larvae, the number of spines contacted, the degree of pressure against the caterpillar and the site of the sting.

First Aid for Stings

No really effective home first-aid treatment for caterpillar "stings" are available. Immediate application of adhesive or transparent tape over the sting area may be helpful in removing broken spines. Washing to affected skin area thoroughly with soap and water may help remove irritating venom. Prompt application of an ice pack and baking soda poultice may help to reduce pain and prevent swelling somewhat.

Antihistaminic drugs, often administered for bee and wasp stings, are reportedly ineffective. Household analgesics such as aspirin appear to also be ineffective for alleviating pain and headache. Prompt referral to, and treatment by, a physician should be accomplished if severe reactions are indicated. Very young, aged, or unhealthy individuals are more likely to suffer severe reaction symptoms.

Insecticidal Control

Where stinging caterpillars present hazards of persons, such as around residences or schools, infested shrubs and trees may be sprayed to reduce or eliminate the caterpillars.

Carbaryl (Sevin) or Diazinon (Spectracide) can be used to control these larvae.

OBITUARY

Lowrey

Lloyd L. Lowrey, 79, of Gause died Tuesday afternoon in a Caldwell hospital. He was a retired farmer.

Funeral was at 2 p.m. Thursday in the Gause Baptist Church with the Rev. Gordon Fort officiating. Burial was in the Gause Cemetery.

Surviving are one son, Albert Lee Lowrey of Brazoria; one daughter, Mrs. Imogene Pileggi of Houston; one sister, Mrs. Erna Erwin of Gause; one brother, Jack Lowrey of Fort Worth; seven grandchildren and seven great grandchildren.

Green Funeral Home in Cameron was in charge.

P&WD Sets Endangered Species Meet

All who are concerned about endangered plant and wildlife species in Texas soon will have the chance to hear an expert speaker on the subject, get up-to-date information and exchange ideas.

The occasion will be a one-day meeting of the Texas Organization of Endangered Species, to start Friday, Nov. 5 at 9:30 a.m. in the new headquarters of the Texas Parks and Wildlife Department, 4200 Smith School Road, Austin, Texas 78744.

The purpose is to present a synthesis of what has been happening in this state in regard to endangered species, and to weigh future action.

There will be a business meeting, open discussion and formulation of committees. Highlight in the afternoon will be an address by Jack Woody, from the Albuquerque, N.M. regional office of Endangered Species.

Company Recalls Cartridges

Federal Cartridge is recalling certain 30-30 rifle cartridges and empty unprimed 30-30 cartridge cases which have a structural weakness making them potentially dangerous to shoot.

The recall is for 30-30 cases with lot codes ending in -5289 through -6285. Lot codes are stamped on the back of each box. Boxes may have the brand names of Federal, Revelation, Wards, or Hiawatha.

Shooters who have this ammunition should call 800-328-7525 or write Customer Service, Federal Cartridge, Anoka, Minnesota 55303 for proper disposition and refund information.

The case heads of a small number of these cartridges may separate on firing, resulting in a jammed rifle and possible injury from escaping gas. Although no serious injury has been reported, they should not be used.

ANNOUNCING

To our friends and customers:

You are invited to an Open House Sat., Nov. 6, 1976, at 11 AM, when Schiller's

Pharmacy will be presented the Bicentennial

Award from the Texas Pharmaceutical Association. Dr. E. Wood Hall, Professor

of Pharmacy at the University of Texas at

Austin will present this award. Refreshments

will be served.

Come by and help us celebrate.

Albert Charles Theirmann to W. C. Pemberton for \$168.75--parcel of land out of the J. L. Nicholson survey and G. M. Gilliland survey.

Water that has been boiled before cooling will freeze faster, because the boiling drives out some air bubbles.

Baylor Receives Poage Gift

Congressman W. R. (Bob) Poage has presented Baylor University more than \$25,000 as an endowment for a congressional library center carrying his name which is being planned for the Waco campus.

Baylor President Abner V. McCall accepted the gift from Poage, who was named a Distinguished Alumnus of the institution in 1967.

He expressed gratitude to the congressman on behalf of the university and stated that

additional funding and plans for the development of the facility, to be named the W. R. Poage Congressional Library Center, will be presented at a luncheon Nov. 10 at Baylor.

The money will be used to help establish a permanent endowment for the maintenance and operation of the planned facility. The library will contain special areas for graduate study and research as well as Poage's documents and papers.

District Legion Assembly Set

TEMPLE
Legionnaires and Auxiliary members from the 11th District of the American Legion will assemble here on Saturday and Sunday, November 6-7, for their annual fall

convention, J. T. Tutor, Commander of Post 133, has announced.

Registration will open at 1 p.m. Saturday at the Post Home, 213 North 23 St., where all events will take place. Post commander, adjutant, finance and service officer's courses will be held with a question and answer session conducted by VAVS re-

presentative Walter Sawyers of Waco. Harry C. Gatewood, 11th District Commander of Killeen, will appoint standing committees. The social hour will be at 7 p.m., followed by the dance at 8.

On Sunday registration will resume at 9 a.m. A breakfast will be at the Post Home from 7 to 8:30 a.m.

Don't store onions and potatoes together; the onions can sprout or rot in the moisture potatoes give off.

BURLINGTON NEWS

By Mrs. Gerald Foshea

Mr. and Mrs. Will Stoebner, Willie Mae Stoebner of Temple and Walter Kohring of Clarkson visited Mr. and Mrs. Lloyd Stoebner and family of Andrews during the weekend two weeks ago.

Mr. and Mrs. H. J. Litzman Sr. last Thursday night

visited Mr. and Mrs. H. J. Litzman Sr. and played 84.

The Burlington Community get-together will meet Thursday night Nov. 4 at the Burlington Recreation Hall. A covered dish supper will be served at 6:30 and games of dominoes and skat will follow after supper. The community is

urged to attend and join in the fun.

Mrs. Herman Dornier Sr. entertained the 42 club on Tuesday afternoon.

Mr. and Mrs. Lynn Heugatter, Alana Marie and Allison of Temple and Charles Marek of Plano spent the weekend with Mr. and Mrs. W. G. Marek.

Mr. and Mrs. Frank Jahn visited Mr. and Mrs. Herman Mueck Sr. of Cameron awhile on Sunday evening and Mr. and Mrs. Ollie Ernst on Sunday night.

Mr. and Mrs. Richard Givens and family of Austin spent the weekend with her parents, Mr. and Mrs. Joe Hromcik.

Mr. and Mrs. Joe Hromcik attended the KJT & KJZT Lodge meeting at Marak on Sunday evening, Oct. 25. Mr. Hromcik received a gold pin for belonging to the lodge 50 years and also received a gold pin for having 3 sons and a son-in-law members of the KJT Lodge.

Mr. and Mrs. Robert McCollum, Joyce and Sharon of Waco visited Mrs. J. T. Prescott and Jake on Sunday.

Mrs. Clemmie Nichols of Waco, Mrs. Secrell Carnes of Chilton, Mrs. Priscilla Clough of Las Vegas, Nevada, Mrs. Aleta Marek, Mrs. Rosie Buegler and Eddy Janke visited Mrs. J. T. Prescott and Jake on Monday evening.

Mr. and Mrs. Herman Dornier Jr., Mr. and Mrs. Henry Davenport visited Mr. and Mrs. Gerald Foshea on Monday night.

Dianne Dornier returned home Sunday after spending several days last week with her grandparents, Mr. and Mrs. Willie Janicek of Buckholts.

Mr. and Mrs. Billy Wayne Marek and Steve of Plano spent the weekend with Mrs. Aleta Marek and other relatives.

Mr. and Mrs. Herman Dornier Jr. visited Floyd Swanzy at a Bryan hospital last Sunday.

Gause

By Mrs. Wanda Lee

Recent visitors with Mr. and Mrs. Harvey Roper were Mr. and Mrs. Louis Pileggi of Houston.

Mr. and Mrs. Koye Cass visited in Lexington Friday night with Mr. and Mrs. Jimmy Cass, Dwayne, Lisa and Carmen. On Saturday afternoon Kay Albright, Craig, Kelly, Lance and Kristi Lee visited in Lexington in the Cass home.

Weekend guests with Mr. and Mrs. Raymond Slay were Miss Cheryl Slay, home from school in Huntsville and Mr. and Mrs. Bob Carmichael of Arlington. They celebrated Mr. Slay's birthday Sunday in observance of the actual day, Monday, Oct. 25.

Mike Cernuch, son of Mr. and Mrs. Chuck Cernuch of Gause and Miss Sandra Thurman, daughter of Mr. and Mrs. Kent Thurman of Milano were married Sunday afternoon, October 24 in a ceremony at the Milano Baptist Church at 2 p.m.

Mr. and Mrs. Cernuch, Donna and Charlette, Mr. and Mrs. Wayne Lee, Craig, Kelly, Lance and Kristi and Wade Wadlington attended from Gause.

Mr. and Mrs. Alfred Coats, Sherri, Ray and Kevin and James Rasco and Rhonda Huddleston of Hearne spent the weekend in Pasadena with Mr. and Mrs. David Wilkins, Diana and Jennifer and J. D. On Saturday night they all attended a football game at Lamar University in Beaumont. J. D. playson the Lamar team.

WINNERS ALL--The ladies pumper team of the Cameron Volunteer Fire Department displays the giant trophy won at the State Fair in Dallas for being the fastest among 13 teams.

From left are Regina Hairston, Janet Harwell, Agnes Bruedigan, Penny Horelica (captain), and June Harwell. Not pictured, but on the team, is Pat Horelica.

Red Wolf Experiment Underway

Red wolf traps are being baited in Southeast Texas.

It's not poachers or illegal trappers, however, who are attempting to trap this species is one of the last remaining areas where red wolves roam.

Since late September, personnel from the U. S. Fish and Wildlife Service have been working in southern Jefferson County as they attempt to trap a mated pair of wolves.

With cooperation from the Texas Parks and Wildlife Department, federal agency personnel have undertaken the experimental trapping project in efforts to transplant the wolves to a South Carolina national wildlife refuge. The trapping program is part of the federal government's attempt at restocking red wolves on native range. Canis rufus, listed on the U. S. endangered species list, is one of six species so designated that have been selected for priority treatment.

The red wolf is the only one of its kind. All other wolves in the world are subspecies of the gray wolf. Federal biologists estimate there are less than 100 pure strain red wolves remaining in southeastern Texas and southwestern Louisiana.

Continued interbreeding with coyotes and other canines has placed the red wolf in more serious trouble than had been thought. Since the early 1970s federal and state wildlife agencies had hoped that this last remaining population in extreme Southeast Texas could be stabilized and saved from interbreeding.

Specimens collected as late as 1974, however, indicate the hybridization process has made substantial increases into this population.

This new preservation measure, trapping the mated pair, will involve their introduction into an area where there are no known coyote populations. Hence, the site chosen for this captive breeding population is Bulls Island, S.C., on the Cape Romain National Wildlife Refuge.

The greatest reliable age reported for a monkey is about 46 years for a male mandrill baboon named "George."

Only the Newspaper

...can be sent out of an area as a pleasant reminder of home and a convenient way to follow events of familiar names. A newspaper mailed while on vacation to a businessman away for several weeks... to a serviceman out of the country... to relatives in another state... is a good way to let people know home will still be there when they're ready to return.

RIDERS WANTED:

Have 4 horsepower WAGON leaving for Oregon Territory

MUST SHARE Expenses

Moving can be very troublesome. Especially when you're off to settle the wilderness.

The roads were terrible. No restaurants along the way. Why, the trip itself took months.

But, if you were willing, the government would give you land. Land that was bought and paid for with money raised from Americans taking stock in their country.

So thousands had a little hand in every homestead.

Today, millions of Americans are still taking stock in their country by buying U.S. Savings Bonds.

Because whether you purchase Bonds through the Payroll Savings Plan at work, or through the Bond-A-Month Plan where you save, you're putting your money where it counts the most. For you and for your country.

So buy U.S. Savings Bonds.

They'll put your savings on the right road.

Now E Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes, and federal tax may be deducted until redemption.

Take stock in America. 200 years at the same location.

Reuters International News Briefs

LOS ANGELES

Scientists may not yet have created the 6 million dollar man or the bionic woman, but they are rapidly moving towards making almost every organ of the human body replaceable either by artificial parts or transplants. Already on the surgeon's spare parts shelf or soon to appear there are electronic arms which will move as smoothly as a real arm, electrode scanners which enable the blind to see and hair transplants which make bald pates sprout.

LONDON

The stakes at the forthcoming Geneva conference on Rhodesia's future are awesomely high, according to western diplomats and officials here. They say

that if this Anglo-American initiative to bring Rhodesia to black majority rule within two years fails, the guerrilla war in the breakaway British colony will worsen.

CAIRO

Mrs. Jihan Sadat, wife of Egypt's president, is known for her readiness to challenge sacrosanct traditions in what is deeply religious and conservative country. Mrs. Sadat has at times been as controversial as she is elegant and eloquent. She once publicly chided the president for his habit of wearing his socks in bed. Comments like that make her seem, especially in Egypt, outspoken.

BUDAPEST

Twenty years after the Hungarian uprising, the last battle scars have been erased from buildings if not the minds of the fighters. Hungary is officially ignoring the anniversary of the short, violent surge for freedom in the streets of Budapest. But the trauma of October, 1956 is deeply etched in the communist country.

MADRID

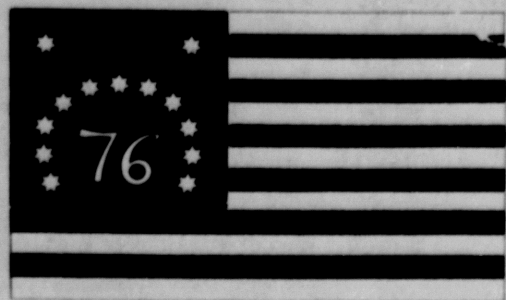

The private world of General Francisco Franco has been laid bare in the best seller that shatters many of the myths about the late Spanish leader. A book by his first cousin and long time secretary, General Francisco Franco Salgado Araujo, also quotes Franco as saying that British intelligence bugged the office of the late French president, Charles de Gaulle in the post war period.

JOHANNESBURG

A fall in world gold prices, unforeseen a year ago, has helped reduce South Africa's economy to its lowest ebb in recent memory, according to economic experts here. A contributory cause is the fast diminishing business confidence caused by black rioting. The present high rate of defense spending, with thousands of troops on South Africa's borders with black African countries, is a further factor.

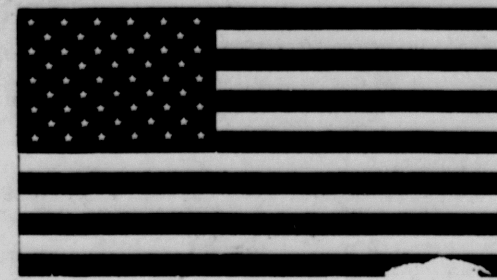

LONDON

Lord Hallahan, Britain's eminent lawyer and conservative party elder statesman, has shocked Britons by saying that their country has shifted toward totalitarianism. Britons firmly believe that their House of Commons--sometimes called "the mother of parliaments"--is the greatest example of democracy on earth. But Lord Hallahan in a lecture sparked off a national debate in the news media by calling for "a thorough reconstruction of the fabric of our historic mansion."

Depression Often Is Untreated

"Depression probably causes more human suffering than any other condition," said Carroll B. Bryant, president of the Texas Association for Mental Health, "and the suffering it causes is almost totally unnecessary."

Bryant explained that current methods of treatment have been successful in relieving depression and its consequences, but that most people who have the condition remain untreated.

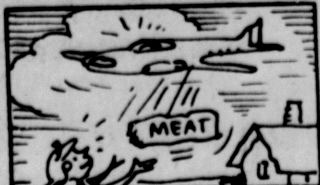

"What we face," he said, "is primarily a problem of attitude. People who would seek treatment for any other serious illness feel that depression is something they should bear, like a punishment, without complaint."

Depression, according to Bryant, is common in all segments of society— young and old, rich and poor, male and female, educated and uneducated. It is thought by some experts to stem from a chemical imbalance in the brain. This imbalance makes the person susceptible to the condition, which can erupt at

any time and is particularly likely to strike during periods of stress.

Common symptoms of depression include headache, sleep disturbances, fatigue, loss of appetite, anxiety, inability to concentrate, loss of interest in people and activities, feelings of guilt, helplessness, remorse, fear, exaggeration of minor obstacles, and other feelings that diminish self-esteem and make even routine activity difficult or even impossible.

According to figures obtained by the Mental Health Association, about 1,500,000 people are currently being treated for depression, but as many as 8 to 15 million more remain untreated.

To freeze meat, use a moisture-vapor-proof wrap, such as heavy aluminum foil, heavily waxed freezer paper, or specially laminated papers.

Pork Supply Plentiful For Table

There will be plenty of pork available for the dinner table the remainder of the year, says a Texas Agricultural Extension Service livestock marketing specialist.

The pork supply has been boosted by increased farrowings, thus upping the number of hogs moving to market, explains Dr. Ernest E. Davis.

As far as prices are concerned, market barrows should bring \$32-37 per hundredweight for the remainder of the year, provided other meat situations remain similar to last year, notes Davis. However, increased overall meat supplies, particularly beef and poultry could put additional pressure on hog prices. About 17-18 percent more hogs will be marketed during the last quarter of this year than a year ago.

If producers proceed with their surveyed intentions, Davis expects the 1977 hog supply situation to parallel that of 1974. Part of the increase will be due to the rising number of pigs farrowed during the last half of this year. These 42 million will be moving to market the first half of 1977.

Looking back at 1974, Davis points out that market hog prices fell from an average of \$40 per hundredweight to around \$24 per hundredweight from late 1973 to May 1974.

If the economy improves, with gains in consumers' take-home incomes and the number of persons employed, and the beef industry recovers somewhat, then there is a positive hope that the swine situation will be tempered some, notes Davis. This could lead to market hog prices averaging \$33-\$38 per hundredweight during the first half of 1977.

Utility Bill Crisis Aired

Sen. Ron Clower of Garland has announced that a number of proposals designed to substantially reduce the energy bill for the average Texas consumer and to encourage long-term energy conservation have been presented by the Subcommittee of Consumer Affairs and will be submitted as legislation for the upcoming session.

The Subcommittee, of which Clower is chairman, released the results of its evaluations of the utility bill crisis in Texas in a meeting at the Capitol last week.

The report states that relief from soaring utility costs must be found in both short-term and long-term actions. For example, a maximum reduction of 40% in an average residential utility bill could be achieved by removing the State Sales tax on utility bills, establishing a 5% MCF flat rate severance tax on natural gas at the well-head, and implementing a flat rate system for energy use. This program alone could save the average consumer more than \$15 per month on gas and electric bills.

The report takes the position that, in the long run, only a serious conservation effort will control rising utility costs.

"Energy conservation for the average Texas consumer must begin with improving the energy efficiency of residential home construction," said Clower.

"Perhaps the most realistic way of achieving this would be for the Legislature to establish a tax credit system to encourage upgrading of energy efficiency standards in Texas homes. A simple package of energy-efficient techniques (including heat pumps, double-paned glass,

inter-wall polyethylene sheeting and caulking) is already in use in several areas of Texas.

"These building practices, both in new construction and in remodeling, can bring about a 20% reduction in present utility bills," he said, adding that the improvements resulting in this saving could be made for \$650 in a \$21,000 home. This could mean a saving of from \$5 to \$15 per month on a yearly average."

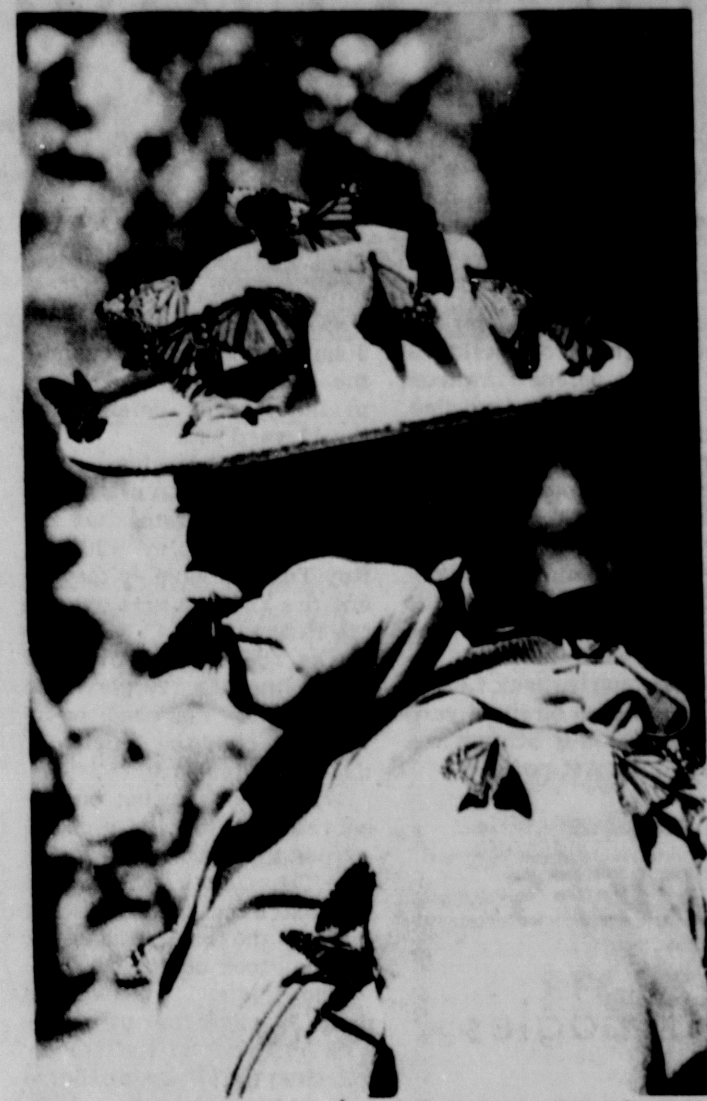

Clower cited a proposal for a flat-rate structure as one which would have a dramatic effect in reducing consumers' bills. A flat-rate structure is where units of energy are priced uniformly, even when high volumes are consumed.

"Perhaps it is time that we price natural gas and electricity the same way we price gasoline at the pump," said Clower. "The price is the same for each gallon, and the buyer knows that the more he uses the more it costs him and there won't be any discount on large-volume purchases."

Report figures were noted by Clower which showed that, according to a survey of some major Texas utility companies, the flat rate system for energy use would result in a savings between 20% and 34% for the residential consumer.

At no point in any of the 56 short stories and four novels that Arthur Conan Doyle wrote about his famous detective does Sherlock Holmes say "Elementary, my dear Watson."

By Bianca Lavies - National Geographic

PERCHING SUNBATHERS, sluggish monarch butterflies cling to Juan Sanchez, who helped find their long-sought winter hideaway deep in the mountains north of Mexico City. Discovery of the hibernating grounds, literally turned orange by countless monarchs, ended years of searching by Toronto zoologist Fred A. Urquhart, and partly solved the riddle of their migrations from the United States and Canada.

IRS Charge Nets Guilty Plea

Vernon A. Westlake, a Temple businessman, pled guilty in U. S. District Court in Austin to a charge that he willfully failed to file a federal individual income tax return for the year 1974.

The criminal information filed by the U. S. Attorney's office on July 21 charged Westlake with failing to file the income tax return when he had gross income of \$18,598.97 in 1974. He resides at 1118 North Main in Temple.

U. S. Attorney John Clark said Westlake can be sentenced to a maximum of one year imprisonment and fined \$10,000 upon conviction. He said Westlake is also responsible for paying the back taxes, penalties, and interest plus the cost of prosecution.

Balance US Budget Says FB

HOUSTON

The president of the 2,500-member family American Farm Bureau Federation says that farm and ranch families have a sure-fire plan to do away with federal deficit spending.

The solution? No salary increases for any elected federal official until the federal budget is balanced. Speaking Thursday before an agribusiness seminar

called by the Houston Chamber of Commerce, Federation President Allan Grant praised Texas state "pay as you go" fiscal policies.

"If states like Texas can operate on a strict, balanced budget, so can the rest of the states, and so can this nation," Grant said.

He said that farm and ranch people suggest an amendment to the U. S. Constitution requiring that Congress operate on a balanced budget each year, and that only in extreme national emergencies should this requirement be waived through concurrence of the House, Senate, and executive branch.

"And while we're at it, let's knock out legislative authority for wage and price controls. They deal with symptoms and not the causes of inflation. They are a broken crutch, and a temptation for political misuse," Grant said.

The farm leader noted that the economic climate of Texas has been attractive to industrial growth, and linked this attraction to the fact that Texas is a right-to-work state "know for its fair-but firm-attitude toward organized labor."

PUBLIC NOTICE

Lone Star Gas Company, in accordance with Section 43(a) of Article 1446c V.A.T.C.S., hereby gives notice of the Company's intent to implement a new schedule of rates for natural gas service to be charged to the residential and commercial consumers in the

City of Cameron

effective November 26, 1976.

The rate schedule is expected to furnish a 9.92 percent increase in the Company's gross revenues in the City of Cameron.

A Statement of Intent has been filed with the City of Cameron

and is available for inspection at the Company's business office located at 118 N. Houston Street, Cameron, Texas

Lone Star Gas Company

Yoe Hopes Dewindle; Eagles Win By PAT

Two second quarter touchdowns and successful point after attempts vaulted the Hearne Eagles to a Homecoming win over the Cameron Yoemen, 14-13, in Friday night action at Eagle Field.

It is the third game for the Yoemen to lose by an extra point and the record shows a loss—not a gallant try for a victory.

In the final quarter the Yoemen scored and it was the decision to go for the win and not a tie. On the extra point attempt substitute qu-

arterback Donald Komar connected with Errol Spells and the Hearne defense thwarted the try at the one inch line.

In the first quarter the cold weather and moist pigskin caused four turnovers within the first 2 minutes. It was mistake city.

David Rosemond mishandled a punt and Eagle tackle #72 Louis Humber recovered on the 11 yard line.

Eagle quarterback Lester Davis fumbled on the 2 yard line and Stanley Schigt recovered the wet pork.

On the second down play John Schmidt couldn't handle the ball and coughed it up to the Hearne defense, on the 11 yard line.

It looked like a hot potato, but in the mid-40 weather it was a cold potato. On the second down play #30 Lee Roy Thomas gave up the ball and the Yoemen took over on the Hearne 3.

The Yoemen took over and within the next 20 plays the Yoe offense marched the 97 yards to open the scoring in the second quarter.

With 8:55 showing on the scoreboard, Spells plunged across the magic line for the Yoe TD. Gary Lewis booted the extra point that sailed through the uprights and the Yoemen took command, 7-0.

The Eagles took over on their 32 yard line after the kick off and on the series marched the 68 yards of home turf and knotted the score.

Thomas got the call after 4 plays and blasted straight up the middle and broke two tackles for 45 yards with 6:28 showing on the clock. Eagle kicking specialist Paul Moore tied the score 7-7 with a perfect boot.

The next offensive series netted a go-ahead touchdown for the Eagles when they marched 63 yards in 7 plays that took 2 minutes and 15 seconds to eat the clock to 4:55 when Eagle QB Davis connected with runner-receiver Cecil Adams for the touchdowns that covered 4 yards.

Moore again booted the ball through the uprights to give the Eagles command 14-7.

In the first half the Yoemen ran 34 plays to the Eagles' 21. Yoe rushed for 133 yards to the Eagles' 145. From the air both teams attempted one pass. Yoe's 13 yards to the Eagles' 4 which was good for a TK.

Neither team was able to stimulate any offensive drive as both teams tried to acclimatize their running game.

In the third stanza the Yoemen ran 14 plays and gained 72 yards on the ground while the Eagles ran only 9 plays for 50 yards.

In the fourth quarter the Yoe offense guided behind the power running of John Schmidt who gained 22 yards in the final stanza and had a total of 124 yards in 21 carries for the night.

The Yoemen started their scoring drive with 8:43 and covered 85 yards of the foreign turf.

It was a running series between Schmidt and Rosemond that covered the yardage.

David Rosemond crashed through the Hearne defense and stood tall from one yard out with 2:13 showing on the clock. Yoe QB Komar rolled out and found Spells open, but a spectacular tackle thwarted the 2 point try that would have secured a one

point victory—instead it turned out to be a third loss by one point.

In the fourth quarter the Yoemen gained 96 yards in 15 plays to the Eagles' 32 yards in 11 plays.

Larry Murphy led the running game for the Eagles and gained 137 yards in 22 carries. Thomas carried for 70 yards in 5 plays. Davis carried 4 times for 13 yards.

Schmidt was the leading ball carrier for the Yoemen. Rosemond carried 15 times for 111 yards. Spells covered 57 yards in 16 carries.

The Yoemen's hopes of a winning season faded as they dropped to 2-5-1 for the season.

The Yoemen will host the Manor Mustangs in District 23AA football action at Yoe Field next Friday night.

DAVID ROSEMOND tries to break one tackle but is unsuccessful. The Yoemen again lost another heart-breaker in the district action after a two-point conversion try that was thwarted at the one inch

line, giving the Hearne Eagles a 14-13 win. The one point deficit has plagued the Yoemen all season long. At right Rosemond gets encouragement from Yoe cheerleader Brenda Kunz. Mike Peck photo.

SPORTS BRIEFS

Badgers Shellack Eagles

JONESBORO

The Buckholts Badgers shellacked the Jonesboro Eagles, 38-18, Friday night in district play. It was a see-saw battle for the first half after the Eagles took the early first quarter lead. Chris Necessary opened the scoring for the Eagles on a five-yard scamper. The PAT failed and the Eagles led 6-0. Donnie Gaas knotted the score 6-6 after scampering 7 yards. The Badger's PAT failed and the score remained tied 6-6. Tedd Nichols gave the Eagles a first half lead 12-6 when he scrambled in from 5 yards out. The PAT failed and the score remained 12-6. The second half was owned by the Badgers. The Badgers had 12 first downs to the Eagles' 7.

Hutto Upsets Milano

MILANO

The Hutto Hippos dimmed the hopes of the Milano Eagles Friday night in District 13B action by downing the undefeated Eagles 31-0. The Hippos were the early favorites in that district, but after early defeats in pre-season play, the Hippos had an opportunity to wrap up the district title with a win against Hutto. This is the first year for the Eagles to play 11-man football. For the Hippos, Phillip Pham accumulated 138 yards and scored 3 touchdowns.

Thorndale Whips Bartlett

BARTLETT

It was labled as a true dog fight Friday night between district rivals Thorndale Bulldogs and Bartlett Bulldogs. The Thorndale Bulldogs were the toughest, 26-0. Mid-way through the second quarter Jeff Davis scampered 8 yards to open the scoring for Thorndale. Halfback Kevin McCoy plunged in for the 2 point PAT, giving them an 8-0 lead. In the third quarter Russell Cuba scored from one yard out to make the score 14-0. In the final quarter Thorndale scored twice. Defensive end Wynn Scruggs recovered a fumble for the third TD. The final TD for Thorndale came when Jeff Davis scored from 8 yards out. Cuba led the running attack with 101 yards in 16 carries.

Calvert Whallops Leon

CALVERT

Calvert kept the hopes alive in District 24A Friday night by defeating Leon, 34-0. Halfback Willie Fleming started in the one-man act as he razzled-dazzled for 207 yards in 25 carries to lead the Calvert running game. Fleming tallied two touchdowns in the course of the evening. Fleming opened the scoring on a three-yard TD and his second TD also came from 3 yards out. Gene Barker scored from 6 yards out and again from a 36-yard run after breaking several tackles and side-stepping to pay dirt. The final Calvert score came on a 31-yard pass from QB Curtis Bennett to Henderson Brewer.

Manor Downs Cougars

MANOR

The Manor Mustangs overpowered the Rosebud-Lott Cougars and handed the Cougars another disappointing loss, 14-6. The Mustangs opened the scoring with 4:55 remaining in the first quarter when Curtis Habbit plunged 5 yards for the opening TD. The score was set up on a 31-yard run by Charlier Joiner. The PAT was blocked. The Cougars tied the score in the first quarter when QB C. E. Wolf connected with Preston Tindle on a 24-yard TD pass. In the third quarter the Mustangs mustered up the winning drive when Habbit carried the mail in from seven yards out.

Elgin Pounces Panthers

PFLUGERVILLE

Elgin pounced on the Pflugerville Panthers 18-8 in District 23AA action Friday night. Elgin scored twice in the second quarter and again in the third to gain the important district win. Wildcat runner Arnold Wilson opened the scoring after he broke loose from 25-yards out. The PAT failed. In the same quarter Anthony Moore scored on a tight end reverse from 6 yards out. The try for two failed, giving the Wildcats a 12-0 half-time lead. In the third quarter 'Cat quarterback Robby McLendon connected with Mark Baker for a 11-yard TD pass. In the fourth quarter the Panthers scored on a one-yard plunge.

Rockdale Demolishes Caldwell, 28-0

The shoot-out occurred in Rockdale Friday night between the only two undefeated teams, the Rockdale Tigers and the Caldwell Hornets. The report from Tiger Stadium: The Tigers are alive and well, 28-0.

Following the procedure as spelled out in the rule book the Tigers must go ahead and play out their district schedule—which will only be a matter of record for the invincible Tigers.

Although it was a sweet victory in one since in another it wasn't. The Tiger field general, junior Kerry Locklin, will be lost for the remainder of the season as he sustained a broken leg in the second quarter.

Field goal specialist, Mario Garza, was also removed from the game after being roughed on a 53 yard field goal attempt. He sustained knee injuries and his condition is undetermined.

The injury situation could be very important because the Tigers will face the Elgin Wildcats, who have lost only one game in district. The Tigers will travel to Elgin for the encounter next Friday.

The balanced Tiger offense scored in each stanza to shellack the Hornets and to dampen their hopes of representing the district.

In the first quarter Don Westley opened the scoring when he broke open and blasted 64 yards for the Tiger TD. Garza's boot was true to the mark and the Tigers led 7-0.

Tiger fullback Robert Luetge chased 12 yards for the second TD and replacement kicked Randy Leech tapped the extra point, giving the Tigers a 14-0 lead.

The score came in 10 of-

ensive plays that covered 70 yards of home turf.

The Tigers maintained the 14 point lead through half and the Tigers defense allowed the Hornets only to their 29 yard line for the deepest penetration of the first half.

Scott Sparks was called to duty after Locklin was removed from the game. Sparks plunged in across the goal line from one yard out. Leech booted the PAT giving the Tigers a 21-0 lead.

The final Tiger score came in the final stanza when Westley capped a 52-yard drive from one yard out. Leech made it three-in-a-row from his department after he booted the PAT through the up-

rights, giving the Tigers a convincing 28-0 district win.

The Tigers owned the contest in the state department when they rushed for 285 yards and knotted the first down marker 15 times. From the air the Tigers covered only 8 yards in one attempt. The Hornets rushed for 144 yards and had 8 first downs. The Hornets had more passing attempts than yards gained from their aerial game. The Hornets completed only 1 pass of 14 attempts for 13 yards.

SAFETY SENSE

Shreds Of Truth

With more and more people discovering the ease and convenience of power equipment, it's more than just a shred of truth to report that using these power helpers safely will prevent accidents. Here from the experts at the Outdoor Power Equipment Institute are some safety suggestions for using leaf shredder-grinders which reduce all those pruned limbs and twigs in your yard.

1. Read the owner's manual and any tags attached to your power shredder.
 2. Keep feet and hands well away from blades and other rotating parts.
 3. Stop the engine and disconnect the spark plug before checking on or working on the blades.
 4. Make sure you know how to shut off the machine in case you have to stop short suddenly.
 5. Do not allow children to operate machine or allow adults to operate it without proper instruction.
- Follow these simple rules and your lawn will not only look beautiful but you will be using your leaf shredder-grinder safely and effectively.

Expansion Of Hospital's Respiratory Care Dept.

Sister Mary Pauline Gregorio, administrator of St. Edward Hospital, announces expansion of the hospital's respiratory care department and the services of two technicians for the department effective Monday, Nov. 1.

The department will be operated by Associated Paramedical Services, Inc., a Houston-based firm specializing in respiratory therapy.

The department will provide the same services as in the past, such as IPPB and oxygen therapy, but will also offer new services of pulmonary function testing, arterial blood gas analysis, and many other new techniques presently offered by larger metropolitan hospitals.

"This increased level of care will enable many patients to remain in Cameron and receive treatment at St. Edward, rather than be transferred to a larger hospital," Sister Pauline said. "The medical staff will have a much wider range of treatments to offer their patients due to increase of equipment and qualified personnel."

Mrs. Brenda Coyle is director of the respiratory care department and will be assisted by Rigo Valdez, long-time employee of the hospital. Mrs. Coyle is a graduate of the respiratory therapy program at Houston Community College, from which she received her associate of applied science degree.

For the past year and a half she has been department head at Gulf Coast Hospital in Baytown and was responsible for all respiratory therapy in the 170-bed facility.

Mrs. Coyle, her husband, and two sons will make their home in Cameron.

Valdez will soon take his written exam to become a certified respiratory therapy technician; the administrator said.

The department will provide 16-hour coverage on-site at the hospital from 7 a.m. to 11 p.m., and 8-hour on-call coverage from 11 p.m. to 7 a.m. In the event of emergencies, outpatient treatments will be available as well as assistance to those patients who may have respiratory therapy equipment in their homes.

Sister Pauline emphasized that all services provided by the department must be prescribed by a recognized member of St. Edward's Medical staff.

Mrs. Coyle and Valdez welcome visitors to the respiratory care department and will be happy to answer any questions regarding the services the department offers.

Singing Convention In Thorndale

The Milam County Singing Convention will be held Nov. 6 and 7 in Thorndale. Merle and Gospel Four and many other singing groups will appear.

On Nov. 6 Merle and Gospel Four will be at Pleasant Retreat Church, 8 miles south of Thorndale. It will start of Thorndale. Activities will start at 7 p.m. Everyone is invited.

On Sunday, Nov. 7, Merle and Gospel Four will be at the high school lunch room. Singing starts at 10 a.m. and lunch will be served at noon. Singing will last until 4 p.m. Everyone is invited.

Retired Teachers

The Milam County Retired Teachers Association will meet Wednesday, November 3 at 2 p.m. in the Cameron Business and Professional Women's Club House.

Margie Ireland, First Vice President, will introduce the third program purposes which are to encourage groups to identify community needs and to develop community services that are identifiable as Retired Teachers Association contributions.

Edrie Browder, third program chairman will present Rev. R. E. Bishoff, pastor of United Methodist churches of Hearne and Gause. He will speak on "Successful Group Involvement in Community Affairs."

Doris Gleason, president will report on the Retired Teachers Association luncheon and program in College Station on Nov. 1.

Dr. T. E. McAllum of McAllen, TRT president will be the speaker. He spoke on "Social and Economic Outlook For Retired Teachers - 1976."

Ruth Rosson will highlight the address of Dr. Thomas J. Shipp of Dallas.

Other members attending the luncheon and program were Ruby Arledge, Edrie Browder, Eunice Lawrence, Ruby Moseley, Ariel Shaw, Margie Ireland, Ima Timmons and Oleta Wise.

Roberta Bowling will inform the members on the legislative program.

The public is invited to the Community Affairs program.

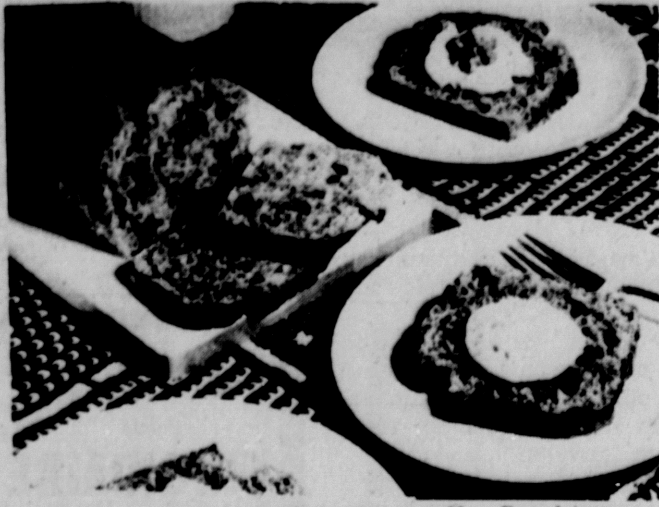

Bees Get Busier

Honey production climbed 6 percent in the U.S. in 1975 despite fewer bee colonies. Output per colony increased by 3.1 pounds from 1974.

Keep an extra loaf of Applesauce Nut Bread in your freezer. You'll discover how versatile this delicious quick bread is the first time you need an emergency dessert. Cut slices just a little thicker than usual and top with a generous swirl of flavored whipped cream cheese. Applesauce Nut Bread can be made with fresh or canned applesauce. Bite-size crispy wheat squares replace part of the flour and give the bread an especially appealing flavor and texture.

APPLESAUCE NUT BREAD

1 3/4 cups sifted all-purpose flour
2 teaspoons baking powder
3/4 teaspoon salt
1/2 teaspoon cinnamon
1/4 teaspoon nutmeg
1 cup sugar
1 1/2 cups Wheat Chex cereal crushed to 3/4 cup
1/3 cup raisins, coarsely chopped
1/2 cup chopped walnuts
1 egg, slightly beaten
3 tablespoons vegetable oil
1 1/2 cups applesauce

Preheat oven to 350°. Grease an 8 1/2 x 4 1/2 x 2 1/2-inch loaf pan. Sift together flour, baking powder, salt, spices and sugar. Stir in cereal, raisins and nuts. Combine egg, vegetable oil and applesauce. Add to dry ingredients and stir just until moistened. Turn into pan. Bake 70-75 minutes or until done. Let cool 15 minutes before removing from pan. Makes 1 loaf.

TOPPINGS: Blend 1 package (3 oz.) cream cheese (softened) with 1 1/2 teaspoons powdered sugar with 1 teaspoon frozen orange juice concentrate
2 teaspoons marmalade OR
3/4 teaspoon rum extract OR
1 teaspoon brandy

Swirl 1 1/2 - 2 teaspoons on each bread slice. Garnish. Makes enough for 3-4 slices.

Flower Show Sponsored By Fleur de lis

"Auspices of Autumn" will be portrayed at the Fleur de lis Garden Club's annual flower show, scheduled for Tuesday, Nov. 9 in the CISD home of Mr. and Mrs. Buddy R. Dulin, 902 N. Jackson, Cameron. Artistic arrangements of dried and fresh floral materials depicting fall in all its beauty will complement each room of the beautiful two story home while horticulture entries of potted plants and cut garden specimens will add much interest for plant enthusiasts.

Mrs. Douglas Buck, flower show chairman, and Mrs. Griffin Barret, co-chairman

extend a special invitation to the public to attend the show from 2:30 to 5:30 p.m. on Nov. 9.

Artistic and horticulture divisions are open to entries from anyone, regardless of club membership. For further information contact the flower show chairman.

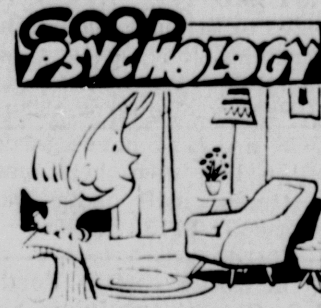

Following the judging of entries, a salad luncheon will be held on the day of the show for club members and flower show judges at the home of Mr. and Mrs. Lanny French.

Special exhibits by Boy Scout Troop 791 and Junior Girl Scout Troops 169 and 403 will also accent the show.

FFA Fruit Sale

Cameron Yoe FFA will begin taking orders for their annual fruit sale on Tuesday, November 2. They will take orders for Thanksgiving and Christmas. If you have not been contacted by November 12, please call the ag building and place your order. Any and all support will be appreciated. Oranges and grapefruit will be available.

"Great men, like nature, use simple language."
Vauvargues

If you're not happy with the size of your rooms, you can change them—psychologically—with color. A small room can seem larger when furnished in pale colors and pastels, a larger room made more cozy with bright, strongly colored furnishings.

World Community Day At Bethel AME

World Community Day will be celebrated by Church Women United on Nov. 5 in Cameron at the Bethel AME Church. Since 1942 World Community Day has been sponsored by Church Women United to emphasize corporate action for justice and peace.

Sister Pauline, administrator of St. Edward Hospital, will be the guest speaker. The 1976 theme, highlighting the bicentennial, focuses on the need to understand the complexities that require new systems to build a world

community of interdependence in which we can live "Into the Third Century—Unafraid." In approximately 2,000 local units of Church Women United, women will be reflecting on the meaning of the words "freedom," "liberty," and "justice," as they relate to every

citizen, and their significance in the lives of church women, united in their belief that all the earth's people should have a right to live in human dignity.

World Community Day will be the climax of a year-long process during which local units of CWU have been holding forums of wholeness to examine priorities for local and national action that will lead to a world characterized by wholeness rather than division. These forums will result in the formulation of planks for a "People's Platform for a Global Society" which will be the focus of the World Community Day celebration. These plans from local units across planks, from local units across the nation, will put in appropriate form for presentation to the President of the United States in January 1977.

Nationwide offerings received on World Community Day, and the year round sale of gift certificates, support the ongoing work of Intercontinental Mission, the channel for Church Women United to fund development projects which foster wholeness in the global community.

CORRECTION

Cost of the six-pack of light bulbs to be sold by Noon Lions Club members Tuesday at polling places should be \$3.50, not \$3 as reported in Thursday's Herald.

Clean and dust plants once a week if possible.

Girl Scout Calendars To Go On Sale

The 1977 Girl Scout Calendar goes on sale Friday, November 5 at 4 p.m. The 1977 calendar -- A Portrait of Scouting -- shows what Scouting's all about. . . girls. There are 12 large candid, but portrait-like photos of Scouts and a new date pad redesigned to allow a maximum of jotting space.

This year the selling price in Lone Star Council's 18-county area will be 75¢, including sales tax. Troop profit will be 12¢ per calendar and Brownies as well as Juniors, Cadettes, and Seniors may sell.

Your neighborhood Girl Scout Troop has 1977 calendars on sale now. . . for only 75¢. Support the Girl Scouts in our community and have a calendar with space big enough to write on. Buy a 1977 Girl Scout Calendar when a Girl Scout calls on you, now through December 5.
